

Kane Ara at a Glance

Established in 2004, Kane Ara Sepahan is a leading Iranian producer and supplier of industrial minerals, specializing in extraction, processing, micronization, and export. With over 21 years of experience and a commitment to quality and innovation, the company has built a strong reputation in domestic and international markets.

Kane Ara manages the entire supply chain from mining and processing to packaging and export ensuring consistent quality, competitive pricing, and reliable supply worldwide.

Using advanced processing technology and specialized quality control laboratories, Kane Ara delivers mineral products that meet international standards, supported by comprehensive testing and technical documentation.

Kane Ara serves industries including oil & gas, drilling, road construction, paints & coatings, and chemical manufacturing, delivering consistent quality through a diverse product portfolio and flexible production.

Kane Ara exports to Russia, Kazakhstan, Iraq, and other regional markets, building long-term partnerships through consistent quality, reliable supply, on-time delivery, and professional customer service.

Today, leveraging its experience, technical expertise, advanced production infrastructure, and growth oriented vision, Kane Ara Sepahan continues to expand its presence in global markets while remaining committed to delivering high-quality products, creating sustainable value for customers, and building long-term international partnerships.

Certifications & Standards

Kane Ara Sepahan is committed to continuous improvement, customer satisfaction, and sustainable growth by implementing quality management systems and complying with internationally recognized standards.

Consistent Quality, Lasting Partnerships

KANE ARA SEPAHAN

Producer and supplier of mineral and chemical products

Kane Ara's Milestones

2004

- Kane Ara Sepahan was established.
- Began operations in mineral extraction and raw material supply.

2005

- Launched mineral processing and micronization facilities.
- Expanded production capacity for industrial mineral products.

2017

- Upgraded production lines and processing equipment.
- Expanded logistics infrastructure and strengthened the supply chain.

2019

- Expanded the portfolio of mineral and industrial products.
- Strengthened the supply chain from mine to export.

2021

- Entered international export markets.
- Enhanced quality control systems and established specialized laboratories.

2023

- Expanded exports to Russia, Kazakhstan, and Iraq.
- Strengthened partnerships with international customers.

2025

- Over 21 years of experience in mineral extraction, processing, and export.
- Established Kane Ara as a trusted supplier in global markets.

Kane Ara Products

Kane Ara supplies a wide range of industrial minerals and chemical products, including:

Calcium Chloride:

Used for dust control, de-icing, drilling, oil & gas, and industrial applications.

Caustic Soda:

Used in water treatment, chemical manufacturing, detergents, paper, and textiles.

Gilsonite:

Natural resin used in drilling, asphalt, and industrial applications.

Bentonite:

Absorbent clay used in drilling and industrial applications.

Zinc Ingot:

Used for galvanizing, alloy production, die casting, and chemical manufacturing.

Kane Ara Advantages

Global Experience

With over 21 years of experience in mineral extraction, processing, and export, Kane Ara has become a trusted supplier for both domestic and international customers.

Direct Producer & Supplier

With direct access to mineral resources and its own processing facilities, Kane Ara supplies products directly to customers, ensuring consistent quality without intermediaries.

Integrated Supply Chain

By managing the entire process from raw material extraction and sourcing to processing, packaging, and export, Kane Ara ensures a stable supply and reliable delivery.

Advanced Processing

Utilizing modern equipment and advanced processing technologies, Kane Ara produces high-quality mineral products with precise particle sizing, consistent quality, and compliance with industrial standards.

Quality Control

All products undergo comprehensive quality testing before delivery and are supplied with technical analyses and the documentation required by customers.

Export Packaging

Products are prepared using international-standard packaging solutions designed for global transportation, ensuring product quality is maintained throughout transit.

Consistent Quality

A strong commitment to consistent quality, reliable supply, and professional customer service has enabled Kane Ara to build long-term partnerships with clients worldwide.

Global Presence

Export experience across key international markets, including Russia, Iraq, and Kazakhstan.

Flexible Payments

Kane Ara offers a variety of payment methods, including local payment options in target markets, making international transactions more convenient, secure, and efficient for its customers.
